

SEDA COLLEGE WA

COMMUNITY CLINICS

Is your primary school or all-abilities organisation interested in free have-a-go sport sessions for your students and clients?

We would love the opportunity for our Year 11 & 12 students to deliver engaging and inclusive have-a-go style Community Clinics at your school or organisation.

SEDA students run Community Clinics on behalf of our sporting partners, catering for PP-Yr6 and people with disabilities.

What is a Community Clinic?

Community Clinics are sports-specific sessions, ran according to your school or organisation's timetable, where SEDA students plan and deliver skill-specific games to enhance fundamental movement skills and foster a passion for physical activity.

Community Clinics can be adapted to a diverse range of abilities, ages, and experiences!

What experience/qualifications do SEDA students have?

SEDA students complete a Certificate III in Sport & Recreation, which equips them with the skills and experiences necessary to plan and deliver coaching sessions.

Specific to their sport, SEDA students complete upskilling in all abilities participation, have their Level 1 coaching badge, Level 3-4 officiating badge, as well as 1-2years of PP-Yr6 coaching experience.

When can we visit you?

Our classes are available to come out to your school or all-abilities organisation on 1-2 occasions, delivering a range of engaging activities.

At SEDA College WA, we value our interaction and engagement with the community, and look forward to establishing genuine connections and positive experiences amongst our participation groups!

How do I book?

Please email us at community@seda.wa.edu.au to schedule your clinic. Clinic availability is limited. We will make every effort to accommodate to your dates and deeply cherish our community connections formed through our clinics.
